# Global Remuneration Professional®

## CERTIFICATION PREPARATION COURSES AND EXAMS

The Global Remuneration Professional (GRP) qualification is the world's most recognised reward designation. It provides a foundation in all areas of reward in which an employer in 2017 requires you to be competent. Nothing is left out. Taught by respected experts, the qualification is earned by passing a series of examinations. Each exam is preceded by a two-day course held in London. Your total time commitment is 2.5 days per module. Ten modules need to be passed to be awarded the respected GRP designation.
