How do we Inspire and Engage
outside of traditional compensation
and benefits programs?

Reality can be so complex that equally valid observations from differing perspectives can appear to be contradictory.

Management School of Thought on Retention:

They are lucky to have a job.

“ I’VE LEARNED THAT PEOPLE WILL FORGET
WHAT YOU SAID, PEOPLE WILL FORGET WHAT
YOU DID, BUT PEOPLE WILL NEVER FORGET
HOW YOU MADE THEM FEEL. ”

-Maya Angelou

4 KEY EMOTIONS THAT LEAD TO ENGAGEMENT

The basic emotion that leads an employee to be engaged is feeling valued, which is the sum of other feelings that are necessary to generate engagement.

ENTHUSIASM

employees are enthusiastic about work

INSPIRED

employees are motivated by their leaders

EMPOWERED

employees are allowed to do the work their way

CONFIDENT

employees are sure they can achieve excellence

95% OF EMPLOYEES THAT FEEL AT LEAST
**3 OF THE KEY POSITIVE
EMOTIONS ARE ENGAGED**

“

Recognition is proven as among the best method of improving work motivation and employee engagement.

”

1 minute spent on recognising behaviour = 100 minutes of initiative in return.

Yet 2 out of 3 people receive no workplace recognition in a given year.

VALUE OF A CULTURE OF RECOGNITION

- **5 times** more likely to feel valued
- **7 times** more likely to stay with the company
- **7 times** more likely to strongly endorse their company as a great place to work
- **11 times** more likely to feel completely committed to their jobs

1. Money is **not the only motivator**
2. The frame of reference is forever changed – **Economic, Social and Technological influences**
3. We are highly influenced by our self esteem and **recognition directly impacts self esteem.**
4. Companies need to treat recognition as a strategic and tactical priority for driving business outcomes because it is the most **cost effective way to drive individual and organisational performance improvement**

02 ENGAGEMENT / MOTIVATION THEORY

MASLOW'S HIERARCHY OF NEEDS

ABRAHAM MASLOW

Abraham Harold Maslow (April 1, 1908 - June 8, 1970) was a psychologist who studied positive human qualities and the lives of exemplary people. In 1954, Maslow created the Hierarchy of Human Needs and expressed his theories in his book, *Motivation and Personality*.

Self-Actualization - A person's motivation to reach his or her full potential. As shown in Maslow's Hierarchy of Needs, a person's basic needs must be met before self-actualization can be achieved.

Ali has really stepped up and taken on the lead role in DBME RAMP testing. He has put in extra effort and long hours to ensure the testing stays on track, while at the same time completing all of his scheduled campaign work. Thank you very much Ali for your hard work and dedication.
